RE: Governor's Bill No.16

Dear Members of the General Assembly:

Having read the Governor's Bill in its entirety, it is quite obvious this is another thinly veiled attempt to strangle Second Amendment rights. In a bill purported to deal with violence and crime are a host of regulations meant for no other purpose than to further restrict gun ownership of law abiding citizens. This bill continues our state government's slow walk to so limit lawful gun ownership that the Second Amendment is for all practical purposes, gutted.

I stand in opposition to Governor's Bill No. 16 as presented.

In Sincerity,

Rev. Tim Carr
